According to the Copeland manuals

Where To Download Copeland Discus Compressor Service Manual

available to me, the net oil pressure (pump discharge pressure minus suction pressure) must be not less than 9 psi for an effective compressor lubrication. On new compressors, I remember watching the pump discharge pressure go up to 50 - 60 psi (low temp systems), with suction pressures 20's and below.

proper Copeland Discus oil pump pressure question

Copeland Discus Digital compressors were designed to specifically meet that challenge. With the ability to modulate infinitely between 10-100% of rated capacity, Discus Digital compressors match the system load requirements precisely while consuming less energy and increasing the life of compressor and other system components.
