Minimal ethics for the Anthropocene is therefore less about building a better world as an external unity and more about making better cuts into that which we are naming the world. But, to avoid becoming yet another masculinist enterprise which knows in advance and once and for all what it is striving for, the minimal ethics proposed here has to

daedala 3, 2014. The minimal ethics posited in this book needs to be thought on a universal scale. This may sound like a paradox, yet it will only seem so if we rush ahead of ourselves and expect such ethics to furnish us with some generally applicable principles that will have to remain valid across all times and locales.
