kit carburetor and overhaul kits during engine repair, maintenance or general overhaul or any other exchange action. NOTE: The Service Instruction SI-912-029/SI-914-029 is not affected. NOTE: The carburetor and/or the float may have been removed from the initial engine and used on another one.

SERVICE BULLETIN Exchange of floats (pair) on ROTAX Engine ...

The #1 reason to overhaul your engine when it hits 300 hours is the lower connecting rod bearing. This bearing fails because the connecting rod has a design flaw in it. All other manufacturers use connecting rods with 2 oiling slots in them for the lower bearing. Rotax only uses one. Due to the lack of oil in that area, the rollers wear out.
