MATTER The branch dealing with measurement of temperature is called thermometry and the devices used to measure temperature are called thermometers. Heat is a form of energy called thermal energy which flows from a higher temperature body to

Physics Notes Class 11 CHAPTER 11 THERMAL PROPERTIES OF MATTER

All properties of matter are either physical or chemical properties and physical properties are either intensive or extensive. Extensive properties, such as mass and volume, depend on the amount of matter being measured. Intensive properties, such as density and color, do not depend on the amount of the substance present.
