Users can easily upload custom books and complete e-book production online through automatically generating APK eBooks. Rich the e-books service of library can be easy access online with one touch.

## **Rat Dissection Study Guide**

Rats are often used in dissection classes because they are readily available and they possess the typical mammalian body plan. Most of what you learn on the rat is applicable to the anatomy of other mammals, such as humans. EXTERNAL FEATURES Refer to the drawing below and identify the indicated structure on the rat prior to skinning.

Dissection. Dissecting tools will be used to open the body cavity of the rat and observe the structures. Keep in mind that dissecting does not mean "to cut up"; in fact, it means "to expose to view". Careful dissecting techniques will be needed to observe all the structures and their connections to other structures. You will not need to use a scalpel.
