Our Vascular Surgeons provide several types of access surgery options for both forms of dialysis.

Arteriovenous (AV) fistula or arteriovenous grafts are typically used for hemodialysis, whereas peritoneal dialysis access (PD Catheter) typically involves inserting a long, silicone-based tube into the abdomen.

with patients. Some types of surgeons come into your life to perform a procedure, make sure you heal and then leave; that's their role. A vascular surgeon may be someone who treats you on an ongoing basis for decades.

What is a Vascular Surgeon? | Society for Vascular Surgery

Vascular surgery is a surgical subspecialty in

Get Free Vascular Surgery For The House Officer

which diseases of the vascular system, or arteries, veins and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. The specialty evolved from general and cardiac surgery as well as minimally invasive techniques pioneered by interventional radiology.
